

“Touch & Try” Demo Program

DataSource Mobility has created an exclusive “Touch and Try” program for the Toughbook U1:

- Program includes Toughbook U1 and cradle
- Duration of program is 10 business days
- Shipping and handling included
- Program requires either Credit Card or Procurement Dept. authorization
- Additional demo programs available upon request
- Form should be returned via fax to 931.919.1219

*By signing this agreement, you are agreeing to return the hardware in 10 business days after receipt or to purchase the equipment. This authorization will be released upon return of unit and accessories in good condition, with damage only from normal wear and tear. No charge will be made on credit card or to your purchasing department unless the unit is not returned in a timely manner and in good working condition.

Get up close and personal with the Panasonic Toughbook® U1 Ultra Mobile Rugged PC (UMPC). Our unique “Touch and Try” demo program is designed to give you the opportunity to deploy the unit in your real-world environment, test your applications and determine the viability of the solution. There is no better way to understand if a product will work in your situation than to actually get “hands on” with a unit. We are confident that you will find the Toughbook U1 to be the most robust, reliable and durable unit to meet your demanding needs—that’s why we have established the largest demo pool of the Toughbook U1 units in the country. We are dedicated to being your number one provider for mobile computing needs.
